1. Workspace Small Business Edition (WS SBE)

WS SBE enables running one or more web shops on a single server or server cluster. Webshop with similar functionality and free hosting can be opened free from <http://wosbee.com/>

SBE / Wosbee is suitable for small companies when building business-to-consumers (B2C) web shops or product catalogs. Small Business Edition lacks some of the business-to-business (B2B) functionality and there are no automated integration capabilities. Also marketing features are limited. However, for a small company it does include all the necessary features to build and run a successful e-commerce site. There are basically no restrictions on company size or area of business.

Basic License

0 €

- One or more webshops
- Free download from: <http://workspace.smilehouse.com/download.shtml>
- Support for MySQL and PostgreSQL databases
- Support for Tomcat, JBOSS and Resin application servers
- Free hosted version from: <http://wosbee.com/>

2. Workspace Standard Edition (WS STD)

Workspace Standard is our flagship edition and it has all the functionality for integrated B2B and B2C solutions. WS STD enables running one or more web shops on a single server or server cluster. WS STD also supports international e-commerce and it can be extended using upgrades. Compared to Small Business Edition, Standard adds the following functionality:

- Integrations
 - Web Services (OpenInterface) API for advanced and automatic integrations
 - Manual import/export functionality for orders and customers in CSV-format
- Enables running multiple Themes simultaneously. This enables:
 - Multi language support. One theme per country
 - Country specific marketing campaigns and pricing
 - Shop-in-shop Themes for selected products or campaigns
- B2B solution with different themes for different customer groups
 - Show prices and extended product data only to registered customers
 - Customer / Customer group specific pricing
 - Customer / Customer group specific themes and product offering
 - Order history, customer data, wishlist and saveable shopping cart for registered customer
- Advanced Marketing tools like group e-mail for registered customers

Basic License

6.600 €

- One webshop
- Support for MySQL and PostgreSQL databases
- Support for Tomcat, JBOSS and Resin application servers
- Allows using maximum of 4 CPU's/cores in server or server cluster
- Includes one OpenSyncro ConnectorPack

Address

Itälahdenkatu 22 A
00210 Helsinki, Finland

- Database Upgrade 3.300 €
 - Support for commercial databases (Oracle, MS)
- Application Server Upgrade 3.300 €
 - Support for commercial application servers (BEA, IBM, Oracle)
- Optional Development License 50% of the license cost
 - Enables running identical development system in addition to production system
 - Development environment can be used for development and testing
 - In addition development development environment can also be used in production during software update process to minimize downtime

Maintenance

20% / year

- Obligatory maintenance agreement includes software updates
- 20% maintenance fee is calculated of the total license value

Leasing offering

With our leasing offering, you can avoid upfront fees by combining license costs and maintenance fees to a single monthly payment. To calculate your monthly fee, first calculate the total license cost and the related maintenance fee. Then divide license costs by 30 and maintenance fee by 12 to calculate the monthly leasing fee.

Example basic license (no upgrades) is 330 eur / month (including license and maintenance, 12 month agreement).
